SUMMARY

Passionate Computer Science Engineering student with strong expertise in full-stack web development using ReactJS, TypeScript, NodeJS, ExpressJS, and MongoDB. Experienced in designing and deploying responsive MERN applications with authentication, analytics dashboards, REST APIs, multi-tenant architecture, and modern UI/UX practices. Skilled in building scalable solutions and optimizing frontend/backend performance for real-world production-ready applications.

TECHNICAL SKILLS

Languages: HTML, CSS, JavaScript, TypeScript, Python, C, SQL
Frontend: ReactJS, Tailwind CSS, Vite, React Router DOM
Backend: NodeJS, ExpressJS, REST APIs, JWT Authentication
Database: MongoDB Atlas, Mongoose
Tools: GitHub, VS Code, Postman, Render, Vercel
Concepts: CRUD Operations, Responsive Design, Multi-Tenant Architecture, API Integration

EDUCATION

Bachelor of Technology in Computer Science Engineering | VBIT Hyderabad | 2023 - 2027

PROJECTS

Smart Leads Dashboard | MERN Stack, TypeScript, MongoDB

Built a production-ready multi-tenant CRM dashboard with secure JWT authentication and protected routes. Developed complete lead management workflows including create, update, delete, and analytics dashboards. Integrated MongoDB Atlas with ExpressJS REST APIs and optimized backend/frontend communication. Implemented responsive UI using ReactJS, Tailwind CSS, Zustand, Axios, and chart visualizations. Deployed frontend on Vercel and backend on Render with environment-based configuration.

AI Career Coach | ReactJS, NodeJS, MongoDB

Built an AI-powered career guidance platform for career planning and personalized recommendations. Integrated frontend and backend features with scalable architecture and responsive UI components. Implemented intelligent suggestion workflows and interactive dashboards for better engagement. Designed reusable components and optimized user experience across multiple devices and screens.

AI Resume Builder | ReactJS, Tailwind CSS, JavaScript

Developed an AI-powered resume builder with customizable templates and live preview functionality. Implemented reusable modern UI components with responsive layouts and optimized rendering. Added export-ready resume formatting and improved accessibility for seamless user experience. Successfully deployed the application on Vercel for public access and testing.

CERTIFICATIONS

NPTEL Elite Certification – Algorithmic Graph Theory and Data Structures | IIT Kharagpur | 2026
- Secured 62% in a 12-week NPTEL course focused on graph algorithms and advanced data structures.

EXTRACURRICULAR

CSI VBIT Student Branch - Documentation Team Member | Participated in technical events and documentation activities.
